

# THE HAMLIN HERALD

IN 36th YEAR — EVERY WEEK SINCE 1905

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, AUGUST 15, 1941

NUMBER 42

## Hamlin Golf Tournament Runs One More Week

Unusual interest is existing in the Hamlin City Golf Tournament, which began last week and ends on Thursday, August 21.

A brief summary of the line-ups and the results is as follows:

### FIRST ROUND:

#### Championship Flight:

Chas. Ballew beat Carl Young, 1 up.

Travis Dean beat Elmer Feagan, Sr., 2-1.

Elmer Feagan, Jr., beat M. O. Kimmey, 6-5.

O. G. Harvey beat Bert Pribble, 1 up on 22 holes.

### FIRST ROUND:

#### First Flight:

Dr. P. A. Fowler beat Arlie Casle, 4-3.

Brad Rowland beat Grogan Turner, 3-2.

J. W. Ezell beat W. L. Boyd, Jr., 4-3.

Up to Wednesday noon of this week, only one match, that of Otis Hopper and Haskell Carter was not played, or reported.

#### Second Flights Played:

Carl Barton beat Dub Burgess, 1 up on 19.

Tate May beat Bill Eyssen, 3-2.

B. B. Campbell beat Nig Stringer, 4-3.

Pat Marlow beat O. A. Butler, 1 up on 20.

### SECOND ROUND PLAYED:

#### TO DATE August 12:

O. G. Harvey beat Elmer Feagan, Jr., 11 up.

Brad Rowland beat J. W. Ezell 1 up.

Next report will be given next week, and will complete all results except the last two days, which will be played on Wednesday and Thursday, August 20-21.

W. N. Temple and daughter, Miss Eleanor, were called to Lamesa Saturday to be with Mr. and Mrs. Earl Temple's children, while Mr. and Mrs. Temple are in Dallas where she is taking medical treatment. Mr. Temple and Miss Temple were accompanied to Lamesa by Mrs. W. J. Poe and Mrs. J. B. Eakin, who returned Sunday.

## METHODIST CHURCH

JAMES E. HARRELL, Pastor

Sunday School, 9:45 A. M.  
Morning Worship Service, 10:50.  
Intermediates and Senior Young People meet at 7:30 P. M.  
Evening Service at 8:15.  
Mid-Week Service, Wednesday night at 8:00 o'clock.

The Pastor will preach Sunday morning on the subject: "A Radiant Certainty". Sunday night the sermon subject is to be: "Alternatives". Special music will be arranged.

The best way to double a preacher's power is to double his congregation. Try this on your preacher. COME TO CHURCH SUNDAY!

We always welcome visitors to our services.

Rev. J. E. Harrell closed his revival at Elbert, his first pastorate, last Sunday. He reports a good revival with splendid crowds and interest. There were seven conversions and 4 of these were grown men.

Elbert was Bro. Harrell's first appointment in the ministry, going there as pastor in 1924. He was very happy to return for a revival engagement which was regarded very successful, indeed.

J. A. Holden, of the Boyd Chapel Community, reports that his minister son, Rev. J. C. Holden, will likely arrive on August 20. He came from Colombia, South America, two weeks ago and has been talking in several of the larger cities since then. J. C. grew up in the Boyd Chapel Community and has been over a large part of the Americas. Mr. Holden is arranging for his son to talk to the Hamlin people on Sunday night, August 31. The missionary has brought a native along with him and his appearance in Hamlin will attract great attention.

Mr. and Mrs. C. G. Green, who are spending the summer in Abilene, were here Saturday looking after their home on Union Avenue. During this summer Mr. and Mrs. Green have kept the grounds of their home well tended and it presents an example of civic pride which can be appreciated by every citizen.

All must respect those who respect themselves.

## Four Young People Injured In Car Wreck

Just how any one of four young people escaped death in a car tumble last Thursday night a short distance east of Hamlin is hard to figure out. Perhaps the worst crushed and battered car ever seen in this community is the 1940 Chevrolet that Jimmy King, Miss Virginia Hampton, Miss Craigolene Elmore, all of Hamlin, and Gordon Forrester of Laredo, were riding in about dark last Thursday night.

These young people had driven up and down the main street a time or two and started out on Highway No. 92. When making the curve near the cemetery, the car turned over a number of times with crushing effect. Miss Hampton was probably thrown out as it started and was perhaps injured worse than either of the others.

After the car stopped rolling, the Forrester boy was the first to speak. He asked if anybody was hurt. King the driver, and Miss Elmore responded, but Miss Hampton was some distance back and when found was unconscious. She was rushed to the Abilene Hospital. King was also injured badly and after first aid by a local doctor, was taken to the Stamford Hospital. It was thought that Miss Hampton was fatally hurt, or possibly would lose one eye, but the latest reports are that she will not lose the eye and will soon be at home. She had one shoulder dislocated, the right arm badly lacerated and considerable bruises and cuts on the other arm and back. Miss Elmore escaped any serious injury but was badly shocked and bruised. Forrester tried to be brave and not let his wounds be noticed, but at the hospital, they found that he, too, had injuries that needed attention. King was in a serious condition for awhile and latest reports were that he might lose one finger.

## Highway Repairs Near Hamlin Completed

For several weeks past, a strong force of workmen have been doing some very much needed repairing and improving on Highway No. 92, between Hamlin and Stamford. Several extra standard concrete culverts have been built and extra drainage has been secured in many places. Much of the distance has been resurfaced and sealed, making a better looking road.

Now, if only the Highway Department could finish the west end of 92, between Hamlin and Rotan. Tuesday, the Herald Editor accompanied District Engineer Shelby Treadaway and Administrative Assistant, Mr. Amey, of the Highway Department in Austin, out over the two miles towards McCauley; and out as far as Hitson on the Rotan road. These men were only inspecting and looking over the situation.

Also this week the Highway out of Hamlin north, No. 83, has been sealed, making it about 50 per cent better. The Hamlin main street end has been hard to keep up and the new coat should smooth out to a good surface.

Just when the two roads leading west from Hamlin will be completed is now a question of guess. Both are recognized as badly needed.

Mr. and Mrs. Wyman Baxter are announcing the birth of a son, Joseph Martin, weight 7 3-4 pounds, Saturday afternoon, August 9, at the Hendrick Memorial Hospital, in Abilene. Both mother and baby are reported to be doing nicely.

Also the young man's grandparents, Mr. and Mrs. Q. Martin, survived—the grandmother with only a few added gray hairs and grandpa Q. has been able to make his regular runs on the Santa Fe.

Conductor and Mrs. Pearl F. Fannin and daughter, Miss Frances, returned Sunday from a week of pleasant visit with Conductor C. B. Marietta and wife at Presidio down on the Rio Grande. Mr. Fannin says the drive to Presidio, through Pecos, Balmorhea, Ft. Davis, and Marfa is one to be remembered. Oh yes, to go to Presidio means to step over the river into Old Mexico. To make Conductor and Mrs. Marietta homesick for old "Orient" Hamlin, Mr. Fannin is sending them the Herald.

The Herald anywhere, 1 yr. \$1.00.

## Hampton Produce Co. Served Melons, Heard Talks About Eggs

As was announced in last week's Herald, The Hampton Produce Company held a melon feast at the City Park Friday night.

The purpose of this was to get as many farmers, egg producers together as possible to learn more about production, care and sale of farm produce, especially eggs and cream.

The chief speaker of the evening was Mr. B. P. Laughlin, of Abilene, the manager of Wilson & Company, who handles the Hampton purchases in Hamlin.

The meeting was late in getting started and maybe the bright lights of the Soft Ball field had something in making the attendance small.

Before the melon cutting, Mr. Laughlin got the attention of the crowd and made an extensive talk on eggs. Some of the main points brought out were that the old hen does a mighty good job as far as she goes, and that most of the bad eggs are caused by careless handling or maybe the lack of handling by the owner of the hen. He said an egg is about 98 degrees hot when laid in the nest, that almost immediately the egg begins to "spoil" if the heat is not lowered. Spoiling means turning into a chick, you know. He said eggs placed too quickly into a case that is insulated, will along with other hot eggs, set up a heat and spoil sooner than you would expect. Unsound eggs, dirty eggs, eggs that have absorbed offensive odors, all serve to lower the egg prices. Also varied colored eggs, varied size eggs and eggs produced from wrong feeds, have a tendency to lower prices. He also said Texas eggs do not rank with the best by any means, for several reasons: the climate, the carelessness, and the kinds of feeds and grade of flocks.

It would seem that people must yet learn much about a common thing, like eggs. If they sell something that is not useable, the next time the price will likely lower to take up the "slack". This is true of cream, all kinds of poultry, and even cotton. Some districts of the United States are noted for high grade products—not by chance, but from long and constant education resulting in diligent attention.

If producers of poor quality products are not penalized in prices, they see no reason to improve in quality or handling. A "Don't Care" attitude in producing for the market generally hurts more than one thinks. A basket of the finest extra quality eggs dumped along with old, dirty, cracked and multi-colored and sizes of eggs is lost in the handling and the seller returns to his home disappointed and let down.

Mr. Laughlin made it very clear

## It Looks Like Jones Co. Is to Have Cheese Plant

First tangible steps seem to have been taken toward establishing a co-operative cheese plant for Jones County Friday afternoon when six of the seven members of the Board of Directors met in Anson and authorized application to be made to the Secretary of State for a charter to do business.

Board members present included B. A. Stephenson, S. E. Lawrence, Roy Moritz, J. W. Chandler, J. H. Doty, and L. C. Breland. R. W. Young was the only member not attending the first board meeting.

The board selected the name, The Jones County Dairy Cooperative as the corporate name under which to apply for a charter to do business.

B. A. Stephenson, Hodges, was elected President; L. C. Breland, Hanna community, Vice President; and Roy Moritz, Tuxedo, Secretary-Treasurer of the organization.

Reflecting their interest in the Jones County Dairy Cooperative and their determination to put the plant over, the members of the Board of Directors subscribed five dollars each as a starting fund for the employment of a man to begin work at once in signing up members and milk producers and in soliciting funds.

## BAPTIST CHURCH

Your pastor has been preaching every morning and every evening this week at Boyd Chapel to good crowds. The meeting will close Sunday.

Let us remember the services Sunday: Sunday School at 9:45, Morning Worship at 11:00, and Training Union at 7:15. Our attendance was up somewhat from the Sunday before, but we still did not reach our goal of 275 in Sunday School. Let us make a special effort to have at least 275 in Sunday School. Most of the people who have been away from the city for vacations are coming back now, and we do not want to wait until fall to restore our regular habits of church going.

Your pastor will be here Sunday for the morning service. Your Sunday School Superintendent is back also, and everything is in readiness for a great service Sunday. We hope to see all of you in your places.

Last Friday night, August 8, marked the end of the second annual Vacation Bible School in the Oak Grove Baptist Church (colored) of this city. The commencement program which was held on Friday night consisted of demonstrations of the work done in each department, and after the program, the people saw an exhibit of the handwork done in the various departments. The faculty consisted of the following people from our church: Miss Bobby Jo Cox, Mr. Ira Clements, Misses Marian Martin, Helen Barnes, Koleta Adkins, Phala Davis, Virginia Hampton, Frances Ubben, Bobby Nell Havens, Edna Ruth Meyer, and Marie Huling. A total of 74 were enrolled in this school and the average attendance was 64.

H. E. East, Pastor

### MRS. MORRISON SPEAKER

#### AT METHODIST CHURCH

Mrs. Dale Morrison, head of the Extension Department of McMurry College, spoke at the Methodist Church last Sunday morning. Rev. Mr. Harrell was away in a revival. Very favorable reports were made of Mrs. Morrison's address.

Mr. and Mrs. Gordon Bennett and Patricia, and Misses Clara Louise Shelburne and Elsie Mitchiner left Sunday for a trip to California and other western states.

The biggest customer is now the government. The government is using millions of dozens of eggs in the camps, but they must have a high standard quality—a certain freshness, color and size, and there is no compromise. The speaker complimented the Hamlin egg producers, but wanted them to be more careful about their eggs and cream.

## Hamlin F.F.A. Boys Attend District Encampment

Twelve members of the Hamlin Chapter and their advisor left Hamlin at 8:00 o'clock Thursday morning, August 7, to attend the annual Future Farmer Encampment at Cisco.

The members making the trip were: S. C. Ferguson, Jr., Alvin Johnson, Bill Harbert, Floyd Smith, J. C. Smith, Taylor Sipe, Melville Hines, Glenn Winslett, Richard and Edward Branscum, Glen Adair, and W. T. Johnson. Roma Brown, of McCauley made the trip and took part of the boys.

An enjoyable time was had by all especially when they won the district soft ball championship. They won three games and went into the finals by drawing a bye. Sylvester was their opponent in the finals. Hamlin won the game 4 to 3.

Unexpectedly, S. C. Ferguson and Bill Harbert won the championship in washer pitching. Those two boys were hot on sinking the discs.

Other events in which the boys competed were: 150 yard medley swimming race, 2nd place; 50 yard breast stroke, 2nd place (Glenn Winslett); 50 yard back stroke, 3rd place (Melville Hines); fancy diving (10-ft. board), Taylor Sipe, 4th and fancy diving (low board), R. Branscum, 4th.

This encampment is purely recreational and every boy had a good time. The Hamlin Chapter placed third in the entire meet. Approximately 20 schools were represented.

## This Is A Family Newspaper This Week

This week is the first time in our 27 years that the Herald is put out entirely by the "editorial family".

Our machinist, type-setter, operator, printer, pressman, and general all-round assistant manager and foreman, Mr. Harry C. Dodson, is taking his vacation in a peculiar manner. Last Friday, he underwent a major operation for a trouble of long standing, in the Hendricks Memorial Hospital in Abilene. Mr. Dodson is progressing satisfactorily and should be back with the Herald with in a few days at least after this week.

The Herald may not be the largest community paper in Texas, but it is always as big as the community will permit.

This week all the type you may read was set by our daughter, Mrs. George Kinney, of Stamford, (formerly Doris Pope) who comes over to pinch hit in the emergency. She is tempted to write her column "Points and Personalities" again but that would be a hard task after being out so long. So this is completely a family newspaper this week; hope you will like it.

## Hamlin Folks Can Swim A Lot Now

Hamlin has not yet built a swank swimming pool, like many of her neighbors, but Hamlin does have plenty of water and two lakes full that are given entirely over now to pleasure.

The Upper Lake, the one with the concrete dam, has been full all this year, and it makes a dandy free swimming hole. And as for boating, it is a fine place for boats and surf riding. Not only that, but up there is a swell place for a picnic. Recently, a lot of sand and gravel have been hauled in and a nice beach has been arranged. It makes a very desirable place for a swim.

A man should pardon everybody's faults rather than his own.—Cato.

A LITTLE BIT ABOUT

*This*  
AND A LITTLE BIT OF  
**THAT**

### A New Governor Inaugurated:—

—How many listened to the address of Hon. Coke R. Stevenson, following his oath of office as governor of Texas on last Friday noon? If you heard his speech, you'll agree with us that it was a masterpiece of statesmanship expression.

—Let us quote the last paragraphs of his speech:

"Our great President shows determination to resist every force of aggression and conquest which threatens the liberties we enjoy. Texas is a vital part of this aroused nation. It is incumbent on every citizen of Texas to support our Commander-in-Chief in the defense of our ideals, our standards of life and our fundamental principles.

"Propagandists have given us a scare that perhaps we, too, have become soft as France was shown to be soft last year and as Greece and Rome were soft in the decay that destroyed them. It is a pity that the sons of LaFayette and Rochambeau forgot the teachings of their fathers.

"But the valor of Texans has never been open to question. Under a broiling hot sun this very day our sons are demonstrating again that there is true tempered steel in Texas manhood. They proved in 1918 on the blood fields of France that the descendants of men who fought at San Jacinto, at Bull Run and at Gettysburg had not grown soft nor weak in patriotism.

"There may have been those in the dark dawning day of 1861 who believed or feared that Texans had grown soft during the long years after 1836. But go yonder in the beautiful grounds of our beloved Capitol; look up at the monument to Hood's Texas Brigade and read these lines by President Jefferson Davis:

"They have shown on many battlefields their willingness to die for Dixie, and have a right to wear on their banners the motto of Hampden 'No steps backward'."

"Go to the other side and you will find these words of General Robert E. Lee carved into a massive block of our own Texas granite:

"Their ragged clothes make no difference. The enemy never see their backs. Hood's Texas Brigade is always ready."

"No, I can say to the mothers of Texas—none of us want war. All of

us deplore the signs and portents with which the sinister forces of dictatorship threaten our peaceful ways, but if war does come, I can say in advance to our people that historians will write of the valor of our men as Davis and Lee wrote of the men of Hood's Brigade—"Texas is always ready". And we, who do not go to training camps nor advance to combat, have a responsibility to bring out the iron that is in us. Any weakness that is among us must be put off as a man sheds his light summer raiment and prepares himself against the cold blasts of winter.

"It is my fervent hope that my term of office will be characterized by honesty and efficiency in every department of our state government; that we can have an era of happiness and peace, of thrift and industry, of devotion to Christian ideals under the widening influence of solid education, where refinement and culture go hand in hand with material progress. I earnestly request the cooperation and assistance of my colleagues in the public service. May we collectively evidence an earnest concern for the rights and welfare of every citizen regardless of rank or station. I am conscious that a happy people must sacrifice to achieve, without which we leave no worthy history, or record in the halls of fame. If the register of time shows some achievement along these lines, I will be happy and contented with the verdict of mankind."

—T &amp; T—

### Labor Troubles

#### Again In Camp:—

—Recently readers in this Western part of Texas saw a letter from a carpenter of Anson, placing his side of a labor racket before the people.

—It seems when it comes to building various things needed for "drafted" soldiers, the government turns over the deal to contractors who in turn, hand over the task of getting labor through some kind of union set-up. It is hard for the most "simple" folks to understand just why any man, needing work must first apply to some organization for a job and promise \$35.00 for the card or right to work, and have \$5.00 taken out of his weekly check a time or two and then get fired for inefficiency—then who got the money? Maybe the contractor got a peel-off as a reward for firing the carpenter.

—Plenty of men will pay to get a job, even right here in Hamlin. But why pay some unauthorized outfit? —Every soldier who learns of the racketeering in camp constructions will ask himself, why pay so much for that kind of work and make the soldier work and camp 24 hours per day for less than one dollar?

—Most fullblooded Texans believe that there is a better way to protect labor than by the methods used in the camps above referred to. 99 per cent of all the government camps and for that matter all kinds of government constructions cost 50 per cent more than they would cost if handled in a sane business-like manner, and still get a good job quickly done with labor winning more than it is now under the racketeer.

—There are a lot of injustices going on in this country that are not doing the nation any good. Irregularities prevailing throughout the country in the draft manipulations is enough to shock the mind of any patriotic citizen.

—Every time you learn of any man getting a raw deal through manipulations of laws it can but lower your confidence in the power and future of your country.

—T &amp; T—

### Russia Still

#### Fights On:—

—In wars, as in horse races, the long shot occasionally upsets the dope and comes through for a win. Some of the experts are now cautiously hazarding the guess that this may prove true of the Russians.

—When the German-Russian war began, the bulk of the military authorities reluctantly agreed that Hitler was probably right when he said it would be over in six weeks. Those six weeks and more have now passed, and the Russians, instead of retreating in confusion, are said to be planning gigantic counter-attacks. The Germans have not taken any

areas of major importance. The Red air force, which, according to German claims, was almost totally destroyed in the early days of the fighting, is still very much in evidence and is giving excellent support to the Soviet land forces. The Red mechanized equipment, which was supposed to be second rate, has, according to some reporters who have seen it in action, actually proven equal and even superior to the German. Most important of all, the morale of the Russian people—military and civilian alike—seems to have proven far more staunch than anyone expected.

—Germany has not lost the Russian war. It would not come as any great surprise if Hitler's forces yet succeeded in taking Moscow, Leningrad and other key cities. But these would be hollow victories unless, at the same time, Hitler was able to destroy Russian military power. So long as substantial Red armies remain in existence and fighting, Hitler will not be safe no matter how much Russian territory he succeeds in conquering. On top of that, Russian civilians have shown an almost suicidal fervor in destroying areas which have been evacuated, and in sniping at German troops. The Russians are fighting a total war in total fashion now, and they have demonstrated surprising courage.

—Best of all, from the British-American point of view, is the apparent fact that Germany is suffering terrific losses. On August 2, the Russians claimed that 1,500,000 Reich troops had been killed, wounded or captured. That may represent a big exaggeration—neither the Russian nor the German propaganda ministries can be depended upon for the whole truth. But, if even a third or half that many German troops have been incapacitated, it is a severe reverse to Hitler. The first divisions sent into Russia were the cream of the German crop—the tough veterans of the Polish, French and Low Countries campaigns. No nation can create soldiers of that quality overnight. That may explain reports to the effect that the reserves Germany has lately sent into Russia have proven inferior in quality to the men who preceded them.

—It also seems unquestioned that

Germany has lost vast quantities of aircraft and mechanized equipment—and has consumed immense amounts of oil, that most precious of war materials. Russian bombers have been invading the Rumanian oil fields, and may have done considerable damage. And in the meantime, Britain has been carrying on determined, big-scale air raids against the Continent.

—At the beginning, British spokesmen had little to say of Russian chances. They were frankly skeptical. Now they are saying that the Russians have actually stopped the Germans, and that there is no possibility of the campaign ending before the winter rains set in. If that is true, Germany will be in for a war of position—and that is precisely what Hitler cannot afford. In addition, Britain gets stronger as Germany gets weaker. This war isn't over yet—but not since it started has the outlook been so good for the Allies.

—In time, news of the German reverses and losses is bound to seep through to the German people, no matter how much baloney Dr. Goebbels puts out through press and radio. Then, think some, German morale will start to crack. It is a fact that in the last World War, Germany went to pieces in a matter of a few months, and the main reason for that was the collapse of morale at home. Will it happen again?

Mr. and Mrs. Albert Davis and little daughters, June and Carol, and Wanda Fay Nailor, of Waco, left Monday for their home after a visit of ten days with their brother, E. C. Davis, and family. While here E. C. and his brother slipped off and visited their old home near Gainesville. It did not look like it did 40 years ago.

Mrs. Martin McCain has returned to her home in Houston after a three weeks' visit here with her mother, Mrs. D. O. Sauls.

Mrs. Harry W. Pitzer who has been visiting her parents, Mr. and Mrs. H. O. Cassle, returned Friday to her home in Chickasha, Oklahoma

Fred B. Moore, Jr., and Cal Smith Jr., are spending a vacation on the west coast seeing the beauties and wonders of California.

Misses Inez and Shirley Baggett, of El Paso, spent the past week with their aunt, Mrs. D. D. Harden. They returned home Sunday.

## DARING DESTRUCTION TEST

*in Fearful Death Valley*

Gives New oil a Plain Record for Long-Lasting Protection

Why 5-Quart fill—none added—  
lasted 13,398 miles... Certified

When you're wringing wet these days, just think of Death Valley. It holds the official U.S. record of 134° hot. Wild animals there rarely come out in the heat of day. You'll admit that's a hotspot for testing any motor oil. And that's exactly where 6 representative oils got a fair trial for their lives—to give you up-to-date certified mileage figures.

NEW CONOCO N<sup>th</sup> MOTOR OIL  
gave more than Twice the mileage  
averaged by all others tested

This Death Valley mileage record is today making sales records for Conoco N<sup>th</sup> oil—popular-priced. And here's how this oil was proved for you in advance—by a daring Destruction Test:

6 identical new stock coupes were broken in alike. Test officials had checked engines, part by part, insuring uniformity. The Referee bought 5 big-name oils at retail. The other oil was the same new Conoco N<sup>th</sup> that you can buy today.

The Referee put one strict 5-quart fill in each engine; locked it up tight. Never a drop could be added.

All cars ran 57 miles an hour—in the same Death Valley desert—on the same sizzling days. Drivers switched around to even up human factors. Impartial observers eyed every move—every mile.

**CERTIFIED** I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

*H. M. Jackson*

Consulting Engineer, who during Academic year is Professor of Automotive Engineering, Purdue University

The finish came only as one brand of oil after another quit work entirely, causing final engine destruction. And Conoco N<sup>th</sup> oil far outlasted all others; outlasted the runner-up by 5,683 miles; outlasted another by all of 8,268 miles. Conoco N<sup>th</sup> outlasted the average of the 5 others tested by 7,057 miles... Certified.

Man-Made new Economy aid  
in Conoco N<sup>th</sup>

In this patented oil there's an extra life-giver. Man-made. It's full name is *Thialkene inhibitor*—an inhibitor being something that does the job of *keeping a thing in check*. Now your engine's normal explosions can't help causing foul leftovers. These must be properly kept in check to keep them from making your oil "fester," get weak and pass out. But you know how Conoco N<sup>th</sup> oil "beat the rap" in Death Valley. It stood up better... by as much as 161%. Of course you're not in the business of test-driving, doing all the most furious things. You just want to run every fill right up to as many miles as qualified authorities say is safe for your car. And

AND CONOCO N<sup>th</sup> OIL  
OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. By magnet-like action, OIL-PLATING is bonded to inner engine parts. Then it can't all drain down—not even overnight—not while you use Conoco N<sup>th</sup>. So OIL-PLATING is on guard against wear in advance!... and helps mileage, as it did in Death Valley. An OIL-PLATED engine is one more economy you get from a change to popular-priced new Conoco N<sup>th</sup> oil.

## Setting the Stage for the General and His Boys

Major General Samuel T. Lawton in command at Camp Forrest, Tullahoma, Tennessee, greets the cast of Mobile Unit A of the Citizens Committee for the Army and Navy, Inc. before curtain time. Performances for the 28,000 men at Camp Forrest were given from the built-in stage on one of the Citizens Committee's specially constructed motor vans.

In a letter to Lawrence Phillips, executive director of the Citizens Committee, Major General Lawton expressed the appreciation of himself and the boys for the highly enjoyable entertainment, adding, "I feel the performances were a contributing factor in the maintenance of the high morale of this camp." Under the direction of Harry Delmar there are

six mobile units, touring army camps, and naval and air stations throughout the country.

Reading from left to right are: Ruth Clayton, Stephen Richards, Collette Lyons, Margie Margo, General Lawton, Erma Margo, Lew Parker, Ginger Harmon, Major Head, Ken Nichols, manager (on stage).

## Wedding Facts Leak Out Gradually, Vividly

Last week we reported among several things that Ted Russell, Cashier of the Farmers & Merchants National Bank, happened to be in Austin and saw all he could of the Molly O'Daniel-Jack Wrather marriage. But Ted didn't get half of it told.

An Austin paper, The State Observer, says:

W. Lee O'Daniel this week had gone Marie Antoinette one better—he not only suggested the people eat cake, he had it thrown at them.

For that's the way the guests at the Molly O'Daniel-Jack D. Wrather Jr. wedding were served last Thursday night, when they gathered on the Governor's mansion lawn in Austin.

Nearly 3,000 people gathered in Austin to wait while the wedding ceremony was read, uniting in marriage Governor and Senator-elect O'Daniel's 19-year-old daughter Molly and John (Jack) Devereaux Wrather, Jr., wealthy, 23-year-old East Texas Oil Executive. The event clearly surpassed all other similar festivities held at the mansion under the guidance of W. Lee O'Daniel.

All the people who were gathered there were invited—R.S.V.P.—some of them formally, and other blanketly by the Governor. Ironically, some of those asked by engraved invitation to attend couldn't get in until everything was over. One of these was Rep Jack Ridgway of San Antonio.

The wedding proper didn't go off on time, and a steadily increasing crowd outside grew more and more impatient as time lagged. They applauded at intervals like people do in movie theatres when the film breaks.

The largest part of the crowd stood around a huge platform built up and out from the south wall of the mansion and conjectured about what part the platform was to play in the ceremonies. Other crowds hovered eagerly around five huge barrels which were alleged to have contained fruit juice and around several soda pop containers. They were told that the Governor said they couldn't have anything until the wedding was over. Then everything was to be free. They were willing to wait.

At last they heard the strains of "Dark Eyes." It was being played on a novachord by a specially imported artist. Soon this stopped and all was quiet again. Finally, the beautiful "I Love You Truly."

"Now!" a lady stage-whispered. The crowd became as quiet as a crowd made up predominantly of children could be.

Inside, the wedding went off, as a mansion guard said, "without a hitch." The ceremony, a double ring ceremony, was performed by the Rev. M. E. Sadler, recently named head of Texas Christian University. Miss Mary Katharine Elliott, of Fort Worth, maid of honor, caught the bride's bouquet.

When the wedding was over, attendants brought out the seven large wedding cakes and placed them on the platform.

After the cake came the Newly-wed Wrathers, Jr., and then Governor O'Daniel, Mrs. O'Daniel, Mrs. J. D. Wrather, the groom's mother, seven bridesmaids, and Pat and Mike O'Daniel, the bride's brothers, who served as ushers.

Mr. and Mrs. Wrather, Jr., held a knife together, and cut each of the cakes, feeding each other a bite of each cake and then kissing, to the merriment of the guests. After that, the principles retired within the mansion and the distributing of the cake began, which was a process, Rep. Clinton Kersey said that he would never forget "as long as I live."

Two men dressed as chefs, with tall white hats, and five young ladies dressed in white waitresses' uniforms came out with knives and started cutting up the cake. At first, they handed each piece, wrapped in a piece of paper, to the nearest outstretched hand. As the shouts of "gimme" increased, they started throwing the cake in all directions, like someone throwing corn to chickens.

One young lady was left-handed and had what a by-stander labelled "a definite left hook." This bystander's wife was hit in the head by a deftly hurled, sticky piece of cake, which the southpaw heaved fully twenty yards.

After that, pandemonium. Children besieged the flimsy platform and before the single highway patrolman on guard could stop them, a railing gave away. There was shouting, and screaming, and a great mass of upturned heads and outstretched hands and arms. Women nearly fought over bits of decorations from the cakes which were tossed to the crowd.

At the free soda pop containers, it was much the same. People fought and scrambled for bottles of soda pop, then overturned the cases when they were empty, overflowing with icy water mansion lawns, which quickly turned to mud. Paper cups and plates were scattered the full length of the mansion grounds like they were the day of the inaugural barbecue. Everywhere people were seen scurrying off with pieces of cake guardedly wrapped in pieces of paper. Children gathered up empty bottles and carted them off, avowing that they would sell them next day.

Inside the mansion, part of the wedding ceremony was being read, acted for the benefit of a newsreel cameraman. One cameraman had been thrown out, it was reported, for taking a forbidden picture of the wedding ceremony. The doors were opened and the greater part of the crowd was making its way through the mansion.

The furniture had been removed and the crowds surged through the rooms, into the back "family dining room" where the special guests had left some cake and punch. This was quickly diminished.

All through the mansion, icing, bits of cake, and punch had been spilled on the deep green carpets covering the floors. Much of the ic-

ing had been smeared into the rugs, trampled on by many feet.

Suddenly there was a barrage of rice and the bride and groom sped out the door and away, hardly noticed by the punch-bond guests. The newly-weds were going to New York, it was said, from whence they would go to Washington to watch while U. S. Senator-elect O'Daniel is seated. After that, they will take a honeymoon trip to both Canada and California.

Outside the mansion, Rep. Clinton Kersey of Bridgeport, Governor O'Daniel's staunch friend during the last session of the legislature, stared dejectedly at the people, still waiting for the cake.

"I now," Kersey said, "have seen everything."

"I've lived a long time; I've seen many, many strange things; I've seen circuses and shows; and now, I've seen this."

I've seen everything."

Herman Tindal, a stenographer at Randolph Field, San Antonio, was here Monday visiting friends.

No Product Means  
As Much As Oil

The time was when mineral oil was a mystery, sold by quacks in small quantities for a fabulous sum.

In this age of the world, it is not stretching the simile to say that the world now turns on the lubrication of petroleum products. Oil is more precious than gold in the conflict of peoples fighting one another for supremacy. It must be had to turn the wheels of a million kinds of industry permeating every nook and corner of the globe.

Fortunately, or better say, providentially, America holds the balance of power because she holds the bulk of the world's oil deposits, so far discovered. Will America control, retain, and place to use this former mysterious liquid? Surely Providence did not hide this product the hundreds of centuries from mankind just for nothing. Surely a sensible people will not misuse petroleum products or allow its share to be misused.

It is a far cry from the first uses of "Indian Oil" to the bright, highly refined products we now enjoy in every phase of life.

The greater the difficulty, the more glory in surmounting it. Skillful pilots gain their reputations from storms and tempests.—Epicurus.

## Boy Scouts To Hold Swimming Carnival

All of the Boy Scouts in the Chisholm Trail Council will hold their first annual swimming meet at the American Legion Swimming Pool in Abilene, Wednesday, August 20. The Callahan County Boy Scouts are the hosts for this year's carnival.

Some sixty-five troops of Boy Scouts from Haskell, Jones, Taylor, Runnels, Coleman, Shackelford, and Callahan Counties have been invited to attend. The boys will start arriving at the American Legion Pool, in Abilene, early Wednesday morning, August 20, in time to be here for the general practice swim which begins at 10:00 A.M. Each boy plans to bring his lunch or to buy his lunch for the noon meal, and to bring his own swimming suit and towel.

The following contests between the Scouts will begin at 2:30 P.M.: 1-Fifty yard free stroke; 2-Fifty yard breast stroke; 3-Twenty-five yard back stroke; 4-Medley relay, (fifty yard crawl, fifty yard back, fifty yard side stroke, fifty yard breast stroke), four boys from each troop; 5-Candle race (twenty-five yard swim, any style, carrying a lighted candle in the mouth. If the candle goes out, the boy must return to the shore and relight it before he may continue.); 6-Torpedo dive for distance; 7-Dives: Front Jack-knife, Back Swan, Front Swan, Front Jack-knife with half twist, Front Somersault.

### GENERAL CONTEST RULES

1. Each troop shall be allowed to enter four boys in any event.  
2. Each Scout will be limited to three swimming events and two diving events.

3. SCORING: Six places shall be counted in each event scoring as follows: 6-5-4-3-2-1.

While attending the carnival, any Scout who desires will have the opportunity to pass his swimming requirements for the rank of First Class Scout and his Life-Saving and Swimming Merit Badges.

The Health and Safety Committee of the Chisholm Trail Council has given adequate assurance that

there will be plenty of Senior Red Cross Life Guards on hand to guarantee the maximum safety for every boy while in the water.

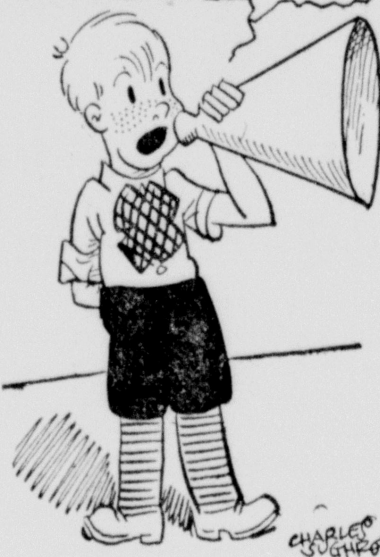

The Chisholm Trail Council plans to continue this carnival every year if the participation and interest of the Boy Scouts warrant it. The general public and all parents and friends are invited to attend this Swimming Carnival and help cheer their boys on to victory.

L. C. HAUGNESS,  
Scout Executive.

Miss Mary Marguerite Nobles returned Sunday from a week's visit with her brother, Warren Nobles, and her aunt, Mrs. W. H. Collins, in Brownfield. Warren accompanied her home and spent the day here with his mother, Mrs. Vera Nobles.

### MICKIE SAYS—

Arthur W. Gray and wife, of Georgetown, were here this week looking after their farms in Jones County. A. W. says his country is ruined by too much rain.

Postmaster Harold Bonner and family are vacationing in the mountains of the west this week.

### HAMLIN BOYS

#### RECEIVE DEGREES

DENTON, Texas.—Two students from Hamlin will take their degrees at the summer graduation exercises to be held at the North Texas State Teachers College, where Dr. James G. Ulmer, president of the board of regents of the Texas teachers colleges, will speak at the commencement at 8 P. M. August 23.

In the graduating class of approximately 500 will be Emil Ray Farmer who is taking a B. S. degree in economics and Guy Murray Wilson who will receive the B. S. in business education.

Kenneth Weyne Decker is visiting his cousin, Wayne Roe, near Seymour this week.

Mrs. J. C. George, Mrs. R. M. Decker, and Mrs. Felix Barthelomy and children returned Sunday from visiting relatives in Seminole and Holdenville, Oklahoma.

Dale Martin, of Marshall, Arkansas, began as assistant at the fountain in the Waggoner Drug Store, Monday of this week. This young man is in Texas for the first time and likes it.

Mr. and Mrs. Bub Lucas, of Holdenville, Okla., are visiting relatives in and around Hamlin. Mrs. Lucas before her marriage was Miss Mildred Scott, granddaughter of Mr. and Mrs. J. C. George.

Mr. and Mrs. Joe Decker went to Comanche County visiting friends and relatives, and fishing last week. They report a good time but fisherman's luck.

Miss Geneva George left last week for Amarillo to take a position as beauty operator in a shop there.

Howard Crow, soldier of the 11th Bombardment Squadron at Ft. Douglas, Salt Lake City, came home Wednesday for a short visit with his parents, Mr. and Mrs. W. E. Crow.

Never prophesy. If you prophesy wrong, no one will ever forget it; if you prophesy right, no one will remember it.

**for MODERN living**

In the early days, medicine show quacks sold crude oil for a dollar a bottle as a cure for all human ills.

Today hundreds of essentials for modern living are made from oil. It supplies heat for the home. It provides power for the Nation's machinery and transportation. It lubricates the gears of industry. It furnishes fuel for your car. It has shortened distances to make our Nation one big community.

America is safer today because of petroleum. The oilman's initiative and enterprise have made available to the United States the world's largest supply of petroleum.

In all this, Texas plays a leading part. Last year we supplied 36 per cent of all the Nation's oil, and now have over half of the Nation's oil reserves.

You and every American live more comfortably and safely today because of Texas petroleum.

## Senate Names Connally Head of Big Committee

Washington—Texas' Senior Senator, Tom Connally, has been elevated by the Senate of the United States to head the powerful Foreign Relations Committee. Senator Connally is the first Texan to have ever gained this distinctive honor.

Connally was first assigned to the Foreign Relations Committee of the Senate in 1931. In ten years he has advanced from a position of twentieth on the committee to the chairmanship. Before being elected to the Senate, Connally served on the Foreign Affairs Committee of the House.

The Foreign Relations Committee, rated as one of the three most important committees of the Senate, works in conjunction with the President and the Department of State to form and to enforce the foreign policy of the United States, a matter of topmost importance at the present time. In their natural course, matters to be taken to Congress relating to foreign policy from the President or the State Department pass through the hands of the Chairman of the Foreign Relations Committee.

All treaties before the Senate for ratification, are first passed upon by the Foreign Relations Committee. Recent legislation or national interest which the committee has handled has been the Neutrality Acts and Lease-Lend Act.

Senator Connally is particularly well suited for his new assignment, with his years of service on the committee in both the House and Senate, his knowledge of conditions in other countries gained by personal visits to all sections of the world, and his knowledge debating ability.

New Passenger Agent

O. M. "Mark" Oliver assumes new official position with the Panhandle & Santa Fe Railway, in this territory, as assistant general passenger agent. He is a member of a pioneer Texas family and one of the youngest officials in the country to hold such an important position. His headquarters are in Amarillo.

## Here's Something Worth Attending

There will be a Field Day sponsored by Farm Security Administration and their agricultural agencies, Friday, August 15, 1941 from 9:30 A. M. to 4:00 P. M., at Vernon Mayfield's Tenant Purchase Farm, (known as Gay farm) 1 1/2 miles Northeast of Wise Chapel School.

How can you make your farm pay? How are other farmers doing this? Suggestions and ideas will be given for improving dairy herds, chickens, hogs, land. If you wish to go with us from Anson, meet North side of the Courthouse at 9:00 A. M. Picnic lunch will be served at the farm. Your presence will help make the day more profitable.

FSA loans, family farm and home plans and records are helping farmers help themselves and their country.

Public Invited. Remember the day, Friday, August 15, 1941.

WHAT?—Field Day, sponsored by Farm Security Administration and other agricultural agencies.

WHERE?—At Vernon Mayfield's Tenant Purchase Farm—5 miles E. and 1 mile S. of Hamlin or 1 1/2 miles Northeast of Wise Chapel. The farm is known as the Gay farm.

HOW?—Picnic lunch will be served at the farm.

WHO?—Everyone is invited.

WHEN?—Friday, August 15th, 9:30 A. M. to 4:00 P. M. (41-2t)

You need not tell the truth, unless to those who have a right to know it all. But let all you tell be truth.—Horace Mann.

## "Ink-Smudged Hands"

"Holding aloft the torch of enlightenment"

—Printers gave the world the gift of knowledge. They found the learning of the centuries mouldering in archives. They brought it out. A world which could not read because it had no books came up from the depths of illiteracy. The printers had put learning at its fingertips.

—We're proud of the accomplishments of the printing industry. As we go through our daily work, it is our intention to uphold high ideals—turn out good work—charge fair prices and thus do our part in speeding the wheels of business.

## Announcement Party For Miss Anita Anderson

Mrs. V. V. Anderson entertained in her home at the Shell Pipe Line Station, Friday afternoon, with a tea, announcing the approaching marriage of her daughter, Miss Anita Anderson, to Mr. Bill Davis, of Dallas. The wedding will take place Thursday, August 28, at the home of the parents of the bride-elect.

Mrs. R. B. Wiar welcomed guests and directed them to the receiving line, which included Mrs. Anderson, Mrs. Milton Templeton of Sweetwater, and Miss Mignon Waggoner. Summer flowers in varied hues were used throughout the house. Centering the lace covered refreshment table was a crystal bowl of pink and blue asters, and flowers in the same shades encircled the punch bowl which was presided over by Miss Lois Anderson. Assisting in serving were Mrs. Eugene Lawson, Miss Charlotte Dillingham and Miss Joyce Hudson.

Small white cards embossed with two tiny silver horse shoes, on which were the names and date of the wedding written in silver ink, gave the announcement.

Miss Ruby Herr directed to the register which was in charge of Miss Billie Faye Rountree.

During the calling hours, piano selections were played by Mrs. Joe McCrary and Miss Edwina Gilbert. Goodbyes were said by Miss Eleanor Temple.

## Garden Club Notes

Hamlin's Garden Club met Friday, August 8th, at the Harden Hotel in its regular meeting which is the second Friday at 9:00 A. M. each month in the Coffee Shop of the hotel.

The meeting opened with the president, Mrs. Fred Moore, presiding. An interesting program was given, the following subjects being discussed: "Outdoor Fireplaces," "Iris Planting Time," "Seeds to Plant Now For Early Spring Blooms."

The next meeting, the 12th of September, is almost fall of the year so each member should feel more ready to get and to give stimulus to the Garden Club, so let's each be present and if possible, bring a friend to join us.

The club would like to urge that this is: "Alley Cleaning Time." Next week a committee is going to drive over town and list the names of nice looking and clean alleys. Go inspect your own and see if it is worthy of notice. Sometime our alleys might be like the little boy who washes his face but forgets his neck and ears. How about the alley of your home?

Have any of you noticed one flower yard, especially, of our colored friends on the Stamford Highway? It is beautiful and colorful and well-kept. It deserves more

## Bundle For Berlin

Painted by Censor

THIS Canadian-made bomb which weighs a mere 500 pounds is just one of some 100,000 that Canada expects to manufacture and ship to Great Britain this year. In addition to equipping and maintaining her own forces on active service at home and abroad, Canada is aiding Great Britain to purchase materials of war in the Dominion by providing her with Canadian dollars for this purpose. During the current fiscal year, Canada expects to lend the Mother Country \$1,500,000,000 to help her do this buying; and this sum in terms of American population and income is equivalent to \$23,000,000,000 under the Lend-Lease Act.

praise than the ones of ours, for it means more work in watering and caring for than our own.

## I GIVE YOU TEXAS

(By BOYCE HOUSE)

### THAT MEXICO TRIP

We had gotten as far as Valles on our motor trip into Mexico in last week's column. Valles is a small town with four or five modern tourist courts; we stopped at Las Palmas. There were banana plants with bananas actually growing; pineapples; a papaya tree and orange groves. Next morning we were really traversing the tropics—about 100 feet above sea level; straw-colored huts, the smoke making its way out through crevices in the roof; yards bright with big flowers; and, pressing close on all sides of the little clearings, the jungle, into which one could have squirmed for two steps and been as hidden as if miles away.

Children along the road called "Allo" and waved their hands, not with a motion of the arm but with the slightest fluttering of the fingers, and their faces were lit with smiles.

At Tamazunchale (called "Thomas an' Charley" by the tourists) we began the climb into the mountains. Soon we were winding around and around on a roadway that had been blasted and chopped through solid rock. The pass between Nuevo Laredo and Monterrey two days before had been a mere dress rehearsal as, mile after mile, we went steadily upward. Twenty-five miles an hour was a good speed. Three thousand feet of absolutely empty space yawned beyond the brink of the highway which however is well constructed and not difficult even for a driver as lacking in mountain experience as I was. The air grew chilly, then downright cold and there were wisps of fog, then a quick rain before we reached the crest of 7,000 feet, then dropped rapidly to 4,500 feet into the pretty little town of Jacala for luncheon.

Beyond there the drive on into Mexico City, while long, is much less spectacular though a still greater height actually is reached—8,300 feet, but you don't realize it, for the country seems to have flattened out.

## POT SHOTS FROM M'CAULLEY

BY GEO. DARDEN

Under the cover of darkness while Mr. and Mrs. Oak Burnham were asleep, cow thieves stole two baby calves out of the pens from the Burnhams last Friday night. One of the calves, a registered hereford, that belonged to the Burnhams; the other, a jersey belonging to Louis Rector. The calves were carried in the arms of the thieves from the pens through a pasture to a waiting truck parked in the road. In the early days, cow thieves were found hanging by their necks to trees when caught by angry cattlemen. To date the thieves who took the baby calves from the Burnham farm have not been caught.

The Baptist meeting which is now in progress will continue throughout the week. Large crowds are attending both the day and night services. Woodrow Harris, from Sweetwater, speaks each day at the morning services, and the pastor, Rev. C. E. Dick, preaches at night.

Mrs. Randel Parker and baby son are visiting her parents, Rev. and Mrs. C. E. Dick. Mrs. Parker was before her marriage Sally Dick.

Mr. and Mrs. Hinds, of Rule, were visiting friends in McCaulley last Sunday. Mr. Hinds, before his retirement, was rural letter carrier at McCaulley.

Mr. and Mrs. Orvos Hunter and children, of Dallas, were visitors in the home of Melvin, Joe and Miss Ruth last week. The Hunters went to visit Carlsbad Caverns and were accompanied by Miss Ruth and Melvin.

George Darden, the scribbler of this column, has accepted a job as manager of the Farmers Gin in McCaulley and will begin work the 15th of August.

Sarah Ann and Ora Frances Steele daughters of Mr. and Mrs. Virgil Steele, are spending this week in the home of Mr. and Mrs. Virgil Stephenson at Big Spring.

John Miles is in Tucumcari, New Mexico, on business and we understand that Mr. and Mrs. Miles will move to Tucumcari in the near future.

Fern Maberry, daughter of Mr. and Mrs. Leonard Maberry, was at home over the week end. Fern is attending a business college in Abilene.

Quite a number of the home demonstration club ladies, along with their husbands enjoyed a get together of all the clubs in the county last week at Roby. From reports, we missed a grand feed, as well as some good talks by different leaders in club work.

One of the most modern and up-to-date homes to be found in this community is that of Mr. Louis Bailey. The home, a rock veneer structure, is up to the minute in every respect and truly a home that anybody would be proud of. Living at home with Mr. Bailey is a son and a daughter. Mr. Bailey has a fine flock of white Leghorn hens, a dairy herd, and one of the best farms in the county. The principal feed grown on the Bailey farm is Kaffir corn, and Mr. Bailey tells us that he likes it much better than maize. He says it will stand up when maize has fallen during dry times, and in his opinion is a better feed than milo maize. The Bailey home is located about four miles north of McCaulley.

Our good friend, Clyde Garrett, often mails us printed material of facts that pertain to different departments and agencies of our government which is very helpful as well as educational, and as we very often write on different subjects in

our O-gram as to strikes in National Defense projects, these booklets of facts come in handy. Judge Garrett, who is connected with the Department of Commerce, is always interested in what is going on in West Texas, and he keeps well informed by reading the Herald.

All Texans should be proud of our new governor, Coke Stevenson. Governor Stevenson came up the hard way and is a man of ability with plenty of good common sense, and it looks as if he will get the cooperation of all of the people.

L. A. Long, independent oil operator, was in McCaulley last Saturday paying off leases and it looks now like oil operations in this vicinity will continue. Rumors are that two wells, one on the Veatch estate and the other on Tom Price's farm, will be spudded in within the next few days.

Mr. and Mrs. Louis Rector, Mr. and Mrs. Leldon Clifton went over to Lubbock last Sunday for a visit with Mr. and Mrs. Tate, a brother of Mrs. Rector.

A picnic supper was held at the Hamlin City Park Sunday night honoring Mr. and Mrs. J. C. Waldrop, of Slaton, who have been visiting in this vicinity for two weeks with relatives. Those enjoying the occasion were Mr. and Mrs. J. O. Jones, Mr. and Mrs. C. D. Jones and children, Mr. and Mrs. R. Humphries and daughter, Mr. and Mrs. Clifford Jones and two sons, Mr. and Mrs. Tom Nall and son, Mr. and Mrs. Tince Miers and children, Mr. and Mrs. Louie Jones, and Miss Jean Barton of Hamlin. Fried chicken and water melons galore were on the menu and all reported a swell time.

O-O-O-O

A good neighbor policy should be practiced among Nations as well as communities. World events are happening so fast that it is almost impossible to keep up with the trend of times. Public sentiment largely controls the affairs of State in a Democracy and our attitude toward our neighbors either brings peace and happiness or else an attitude of resentment. In other words, most of us are possessed with too much self pride and it's human nature to want to stay up with the Joneses. Wouldn't it be a much better world if we all gave our neighbor a little more consideration? Sometimes a kind word or a kind deed will often make a friend, and there is always a time somewhere in life that a fellow needs a friend. There are people who look on the dark side of everything. They take the pessimistic viewpoint. In other words, the worms are going to eat up the cotton; it either rains too much or too little; there is always a better place to trade a little farther down the road; and on and on, the pessimist sows the seed of destruction. When we all come to the conclusion that the community in which we live is a fine place and our neighbors are the best people on earth, then we will see a prosperous town and community in which we live.

Life's battles don't always go  
To the stronger or faster man  
But soon or late the man who  
wins,  
Is the one who thinks he can.

A DARDEN-O-GRAM.

Dr. and Mrs. C. L. Key, and daughter, Ellen Ruth, of San Marcus, were here last week to visit in the homes of Mr. and Mrs. J. A. Holden and Mr. and Mrs. Jim Ferguson.

Mr. and Mrs. John D. Ferguson went to Fort Worth Saturday afternoon to accompany Mrs. E. W. Bounds to Hamlin. Mrs. Bounds will make her home with her daughter, Mrs. S. C. Ferguson, and husband.

To find fault is easy, to do better may be difficult.—Plutarch.

## WISE CHAPEL NEWS

By Catherine Drake

The Baptist meeting is being held at the Abbie Church. Rev. Jackson, of Abilene, is doing the preaching. Song services are led by Charles Torrance, of Abilene.

Mrs. J. R. Bonds, of Hamlin, and Mrs. T. W. Flenniken and son were in Stamford Friday afternoon.

Mr. and Mrs. Edgar Crews and daughter spent Sunday with Mrs. W. D. Patterson and family.

Mr. and Mrs. George Potter and Mrs. Brennie McCleary and daughter spent the week end with Mr. and Mrs. Jerry Bush, of Post.

Mr. and Mrs. Roy Cooke and family, of Abilene, spent Sunday with Mr. and Mrs. A. W. Jobe and family.

Mr. and Mrs. Ike Dixon, of Flat Top, spent Sunday with Mr. and Mrs. Dave Herbst.

Connie Drake and sisters visited Mr. and Mrs. J. J. Hines and son, of Hamlin, Sunday night.

Miss Joyce Agnew spent Sunday with Patsey Fletcher.

Mr. and Mrs. Clyde Whitaker and two daughters and Mrs. Gean Watson returned Saturday from a trip to East Texas.

Mr. and Mrs. O. R. Jobe and family visited in Buffalo Gap Sunday.

We are sorry to report that Mr. F. Vaughan has been on the sick list.

Confucius say:

"Wise is that man, and bound to grow,  
Who knows he knows a thing or so  
But who is not afraid to show  
The many things he doesn't know."

The rich man has more relations than he knows.

**IN SUMMERTIME, TOO**  
a meal without MEAT is a meal INCOMPLETE

MEAT can be prepared so quickly it is an ideal hot weather food served hot or cold. Meat is just as important to your diet in summer as well as winter. The body always requires protein to build and repair tissues.

Visit your Safeway Market. There are a lot more hot weather meat recipes by Julia Lee Wright that are yours for the taking.

## DOVIE NEWS

By Opal Parker

The League had their regular Sunday night program; the topic, The Marriage Ceremony. Those who had parts on the program were J. K. Cooley, Opal Parker, Elvin Cooley, and Billy Taylor. Following the program was a piano solo by little Miss Kraigolene Bessire. After League, Rev. Malone filled his regular appointment.

Mr. and Mrs. Lawrence Ivey, of Louisville, Kentucky, have been visiting their parents, Mr. and Mrs. W. Ivey. They are now visiting her parents, Mr. and Mrs. C. H. Tubbs, of Lubbock, but will return here this week end.

Miss Opal Parker returned last Thursday from Lubbock where she had been visiting friends the past week.

Miss Virginia Lee Cooley spent the week end with Miss Opal Parker. Mrs. C. C. Renfro left Monday for Waco, where she will spend a

week with friends and relatives.

Mr. and Mrs. Gerald Renfro and baby have moved back in the Carlton community from Lamesa. We are glad to have them back.

Those visiting Mr. and Mrs. W. W. Ivey Sunday were Mr. and Mrs. R. E. Bessire, Mr. and Mrs. Gerald Renfro and baby, and Miss Virginia Cooley.

Mr. and Mrs. Hayes Malone visited their daughter in Corsicana last week. She returned home with them for an extended visit.

Mr. and Mrs. W. R. Wilkerson spent from Sunday until Wednesday of this week in Waco visiting their daughter, Mrs. Lowell Ballew, and family.

### "Grouchy" Husbands

and wives, may be suffering from aggravating bowel gas, sour stomach or headache caused by spells of constipation. Try ADLERIKA. It effectively blends 6 carminatives for relief of gas pains, and 3 laxatives for gentle, quick bowel action. Your druggist has ADLERIKA.

Waggoner Drug Company  
And Inzer Pharmacy

Mr. and Mrs. Conrad Barton went to Rotan last week to make the home, where he is employed in the Davis Drug Store. For two weeks Conrad had assisted in the Waggoner Drug Store here while Lan Davis was taking a vacation in California.

Doyle Jones, clerk for the Malo Dry Goods, left Sunday for Dallas to spend two weeks in a dry goods school. Doyle wants to learn how present goods to his customers and realizes a few tips in the wholesaler's houses and lectures ought to help.
